

**PREMIER  
BARRIER**

## 1% IODINE BARRIER DIP

**There's never been a better, more water-resistant barrier against mastitis**

- **Unique IoPlex production process** ensures a steady supply of free and available iodine for broad-spectrum kill of mastitis-causing organisms.
- **Provides superior protection** between milkings.
- **Proprietary polymer technology** provides maximum water resistance.
- **Forms a physical barrier** on teat skin to block pathogens.
- **Ideal for use during challenging weather** and hygiene conditions.
- **Barrier film stays on teats** between milkings and is easily removed during prep.
- **Barrier Spray** formulation is designed specifically to work with leading milking robots and robotic applicators.
