

Biosan

Manual Cleaning Solutions

Control 885

- Quaternary based, liquid all-purpose cleaner and deodorizer for hard surfaces
- Contains cleaning surfactants to easily remove dirt from the surface
- Pleasant smell

Ultimate Brew Cleaner

- Powdered non-caustic oxygenated all-purpose cleaner for hard surfaces
- Effectively cleans items that can't be reached
- Strong enough to remove difficult build up

Power Clean Detergent

- High sudsing liquid dish detergent
- Cuts grease fast with longer lasting suds yet mild on hands

Foam Sprayer

- Produces thick, high quality foam
- Available in 0.4 and 2.6 gallon capacity

Foaming Alkaline Cleaner

- Caustic based, high foaming cleaner
- Penetrates soils for effective removal
- Provides excellent sheeting action for quick, spot free drying
- Use on exterior surfaces of storage tanks, vats, processing surfaces, utensils and similar

High Foaming Acid Cleaner

- Provides a rich foam which clings to vertical surfaces increasing penetration time.
- Provides excellent sheeting action for quick, spot free drying
- Use on exterior surfaces of storage tanks, vats, processing surfaces, utensils and similar

CIP SOLUTIONS

Tap into quality with brewery sanitation solutions.

Exceptional cleaning and sanitizing products allow you to optimize your cleaning process, so that you can stay focused on your craft.

Let us help you produce and deliver the highest quality beer, from your kettle to their glass.

ALKALINE WASH

- Caustic, non-foaming alkaline CIP detergent
- Chlorine and phosphate free
- Scale inhibitors and rinse aids promote rapid and clean sheeting
- Chelating agents bind metallic salts for efficiency in hard water conditions
- For best results use: AgroClean 465 or AgroClean6010A

ACID RINSE

- Conquers cleaning challenges such as beer stone and mineral deposits
- Formulated to neutralize alkalinity and react with minerals to prevent build-up in the system.
- For best results use: StrongHold NPS, StrongHold 3505 & Stronghold EnviroGreen

ALKALINE WASH + ACID RINSE

- Formulated to clean an entire system in a single wash, replacing the alkaline wash and acid rinse steps.
- Combination of acids, surfactants and emulsifiers dissolve mineral deposits and proteins.

- Provides all the benefits of One-Step with the added advantages of peracetic acid in one cleaning step.
- Peracetic acid is used in CIP applications for its superior sanitizing qualities and effectiveness in various water temperatures

ACID RINSE + SANITIZE

- EPA-Registered non-iodine sanitizer that provides effective germicidal action against a broad range of micro-organisms
- Suitable for use in CIP and hard-surface applications

- EPA Registered Acid Sanitizer that combines Acid Rinse and Sanitizer steps on the CIP process
- Combines the intensity of an acid rinse against proteins and phosphate scale

- EPA Registered Acid Sanitizer with a punch of nitric acid to prevent build up due to high alkaline buffers
- Combines the intensity of an acid rinse against proteins and phosphate scale with the proven sanitizing efficacy of peracetic acid, in one step.

Difficult to clean elbow with scale build-up, resolved with OxyStrike.
