

## FEATURES & BENEFITS

- Dual-germicide system provides quick kill and long-lasting protection
- Attacks harmful organisms while being gentle on the skin
- Lactic acid provides gentle exfoliation of dead skin and removes keratin build-up known as hyperkeratosis.
- Resistant to breakdown and loss of activity caused by organic matter and soil – unlike iodine and peroxide-based teat dips.

## Blending System Available

Manufacturer or seller makes no warranty, express or implied, concerning use of the product other than for the purpose indicated on the label. Manufacturer or seller is not liable for any injury or damage caused by this product due to misuse, mishandling or application not specifically described on the label.

# Chlorine Dioxide Teat Dips

## Effectively prevent mastitis, and minimize hyperkeratosis.

### Ready to Use

#### XT Pre/Post

*Protection and skin conditioning in one versatile product*

- Rich skin conditioning and 12% emollient package including lanolin, glycerin and propylene glycol
- Solution remains active, with high levels of CL02, for multiple days
- One product for pre and post dipping
- Bright Green marking readily identifies dipped, sprayed or foamed teats

#### XT Barrier

*Long-lasting barrier protection*

- Forms a physical barrier on teat skin to physically block pathogens
- Barrier film is easily removed with standard pre-dips
- Rich skin conditioning and emollient system including lanolin
- Solution remains active, with high levels of CL02, for multiple days

#### XT Armor

*Best defense against challenging bedding conditions*

- Quick drying microfilm barrier preventing high bacteria load bedding from sticking to skin
- Contains 6% emollient package
- Solution remains active, with high levels of CL02, for multiple days

### Concentrate

#### XT 22C

*Economical alternative to iodine, post-dip*

- Highly concentrated formula provides a cost effective pre and post-dip solution
- Premium emollient system that contains Lanolin, Glycerin, and Propylene Glycol for ideal post-milking skin conditioning
- Solution remains active, with high levels of Chlorine Dioxide, for multiple days
- Can be used as a spray, dip or foam

#### XT Ultra Concentrate

*Economical concentrated pre-dip*

- Highly concentrated formula provides a very cost effective pre-dip solution
- Contains 2-way emollient system including lanolin and glycerin
- Effective surfactants thoroughly cleans teats
- Can be used as a spray, dip or foam
