

### **FEATURES & BENEFITS**

- Alkaline CIP detergent that lets you wash equipment even when water temperatures drop lower than 120 degrees.
- Runs at reduced water temperatures, saving energy and money.
- Chlorine and phosphate free
- Scale inhibitors and rinse aids promote rapid and clean sheeting
- Chelating agents bind metallic salts for efficiency in hard water conditions
- Incorporates Poly-TEC polymer technology for superior emulsification

#### ORDERING INFORMATION

AgroClean RTC

4351	5 gal
4352	15 gal
4353	55 gal
4354	265 gal

# Consistent cleaning even at lower temperatures.

#### **SPECIFICATION DATA**

Dilution	0.16 % - 0.78%
рН	12
Color	Colorless
Fragrance	Slight Odor
Phase	Liquid
Active Ingredient(s)	Sodium Hydroxide - 15 -25%
	Sodium Hypochlorite - 1-5%
Density	1.29

#### **DIRECTIONS FOR USE**

- 1. RINSE: Immediately after milking, rinse the system with clean, warm water (100-110°F). Do not recirculate water. Drain system.
- 2. WASH: For proper reduced temperature cleaning, water should not be less than 85°F at the end of the wash cycle. Start temperature is based on the temperature drop in your system. Typical start temperature is 120°F. Recirculate the proper solution of AgroClean RTC through the entire system for 5-10 minutes.
- 3. ACID RINSE: Recirculate a solution of StrongHold Acid Rinse or Acid Sanitizer following label instructions.
- 4. SANITIZE: Just prior to milking, circulate a solution of chlorine sanitize as directed on the label. Sanitize step is not required if Acid Sanitizer is used.
