CHLORDINE ^{1.75%} Udder Wash

SPECIFICATION DATA

Primary Germicide	Chlorhexidine
Color	Clear
Fragrance	Faint
Mix Rate	1 oz. product to 5 gal. water
Usage	Pre-Milking Wash

DIRECTIONS FOR USE

Chlordine Udder Wash is an aid in the prevention of organisms which may cause mastitis.

DIRECTIONS FOR USE:

Udder Washing - Before Milking

1. Using plastic pail, prepare solution containing 1 ounce Udder Wash to 5 gallons of warm water.
2. About one minute before applying teat dip cups, dip a single service towel into solution. Wash and massage teats and udder thoroughly. Wring excess solution from towel and dry teats and udder. Do not dip towel back into solution. Discard towel.
3. Prepare fresh solution when the used solution becomes visibly contaminated.

Chlordine Udder Wash is not a Teat Dip
Use a recommended teat dip for post-milking treatment.

SAFETY & DANGER

PREVENTION: Wash skin thoroughly after handling. Wear eye protection/ face protection.

FIRST AID / RESPONSE:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention.

STORAGE: Store locked up.

DISPOSAL: Dispose of contents/ container to an approved waste disposal plant
