

"FEWER TEAT END ISSUES"

"Our local dealer recommended Aura. The cost was quite a bit lower than the iodine we had such good luck with and we decided to give it a try. Within the first month, we noticed fewer teat end issues and the count came down. The Aura teat dip was working better than any iodine we used in the past and we saved over \$1,000 per month on our dip costs. We have used Aura for 5 years now, with perfect results."

UDDER HEALTH SOLUTIONS START HERE.

Fast-acting, excellent skin conditioning

- **Synergistic effect** between lactic acid and glycerol monolaurate, both food-grade antimicrobials, provides a very broad-spectrum kill.
- **Every component in Aura contributes** toward improved skin condition.
- **Lactic acid hydrates and nourishes skin** while penetrating and gently exfoliating dead cells, allowing for regrowth of fresh skin.
- **Three-part emollient system**, including lanolin, provides hydration and reinforces natural lipid barrier.
- **Ingredients in Aura are GRAS** (Generally Recognized As Safe).
- **For use as a spray, dip or foam; Bright yellow marking.**

*Aura Pre/Post contains a **7.5% emollient package** including lanolin.

*Aura Barrier contains a **10% emollient package** including lanolin.
