

7% Iodine for Topical Antisepsis

YOUR FIRST CHOICE FOR:

Calf navel-dipping

Superficial cuts, abrasions and bruises

Dehorning wounds

Insect bites

Tincture of Iodine 7%

Tincture of Iodine 7% is a **DEA regulated** product used as a topical antiseptic or disinfectant.

Active ingredients include Iodine 7.0% w/v, sodium iodine 5.0% w/v and isopropyl alcohol (99%) 82.0% w/v.

7% Iodine XD

7% Iodine XD contains a blend of iodine tincture and iodine-surfactant complex. This complexed iodine provides a minimum of 7.0% titratable iodine that is **exempted from DEA regulation**.

Tincture of Iodine		7% Iodine	
9141	1 qt	9242	1 qt
9140	1 gal	9241	1 gal
9142	15 gal	9243	5 gal
9143	55 gal	9244	15 gal
		9245	55 gal

Important:

7% Iodine can be used for superficial cuts, wounds, abrasions, insect bites and bruises. Prior to use, trim hair from area to be treated and wash with soap and water followed by application of 7% Iodine.

When these products are used on or near the teats, thoroughly wash these areas before the next milking to prevent contamination of milk.

Not for use in body cavities, in deep wounds or on burns. Keep away from heat and open flames. For animal use only.
