

ArcticGuard

1% IODINE WINTER DIP

Superior protection from harsh weather conditions

- **Highly effective** 1% iodine winter dip provides broad-spectrum protection against mastitis-causing organisms.
- **Combats cold** with anti-freeze capability
- **Withstands freeze-and-thaw cycles** without the loss or fallout of iodine.
- **50% emollient** package protects against cold temperatures and low humidity.
- **Provides a thick protective covering.**

ArcticGuard Teat Dip

STANDS UP TO HARSH WINTER CONDITIONS

Winter conditions can cause skin chapping, and damage can occur in low temperatures with low humidity

Additional skin conditioning found in ArcticGuard can minimize teat skin damage

These emollients protect, heal and soften the teat

Provides teats the necessary extra protection when temperatures are in the 30's and lower
