

Powdered CIP Detergents

CIP DETERGENTS

Two Proven Germicides, One Powerful Product

Highly concentrated, powdered chlor-alkaline CIP Detergents are formulated to handle the toughest cleaning conditions. These phosphate-free, non-foaming formulas contain Poly-TEC, our proprietary blend of polymer based water conditioning and sequestering agents. They provide enhanced emulsification, scale inhibition, and rinse aids to leave your system sparkling clean.

- Poly-TEC polymer package for superior cleaning using less alkalinity and chlorine than traditional cleaners
- Scale inhibitors to prevent build up of scale within the system
- Rinse additives for rapid and clean sheeting of water
- Chelating agents to bind metallic salts in all water conditions

Ultra-Duty, chlor-alkaline CIP detergent for tough cleaning conditions

Heavy-Duty, chlor-alkaline CIP detergent for normal cleaning conditions
