

# DURAHOOF

## ALL IN ONE FOOTBATH CONCENTRATE

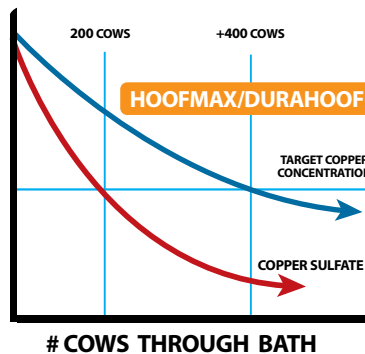

### Just Add to Water

**DuraHoof** is the easy-to-use footbath concentrate that helps you reduce copper and costs. There's no need for measuring "dry copper sulfate." Just add DuraHoof's pre-mixed solution to water, and begin cutting your copper sulfate usage and lowering the cost of your footbath program.

- **Promotes hoof hardness** and controls bacteria associated with infectious hoof diseases like digital dermatitis and hoof rot.
- **Convenient liquid** is easier to handle than dry copper.
- **Remains effective** for up to 400 cow passes.
- **Use with Footbath Dosing System** for a perfect bath.

*DURAHOOF ensures proper copper (Cu) chemistry, allowing for more successful cow passes with less copper.*

### An Organic Accepted Footbath Solution for Organic Operations

**Ideal for organic certified dairy operations** and certified organic livestock producers seeking a streamlined footbath procedure.

- Offers the same benefits as DURAHOOF, but made with organic components

#### DURAHOOF

**6030** 15 gal

**6304** 55 gal

**6305** 265 gal

#### DURAHOOF Organic

**6303-ORG** 15 gal

**6304-ORG** 55 gal

**6305-ORG** 265 gal

### KEEPS COPPER ACTIVE LONGER

Includes HoofMax™ which helps copper ions remain active longer, even in the presence of organic matter

Promotes hoof hardness

Controls most forms of infectious hoof diseases

No guesswork involved. Just add to water for a highly effective, long-lasting footbath
