

SIMPLIFY HOOF HEALTH

The perfect combination of copper sulfate and HOOFMAX™

This combination of copper sulfate and a dry form of HOOFMAX™ comes in a single, easy-to-use container. The footbath additive makes copper more available for killing pathogens and hardening hooves.

- **Easy to mix** and use by adding water.
- **Treat up to 300+ cows** before replacement.
- **Activates copper** to effectively kill pathogens and harden hooves.
- **Each 12-pound container makes 50 gallons** of ready-to-use copper footbath.

HOOFMAX® Dry

6201 12 lbs

6202 15 lbs

6203 30 lbs

KEEPS COPPER ACTIVE LONGER

Cuts copper sulfate usage to only 8 pounds per footbath

Helps to reduce copper sulfate waste

Reduce copper loading on land

No guesswork involved. Just add to water for a highly effective, long-lasting footbath
