

Section 1. Chemical Product and Company Information

Product Name : StrongHold NP 1000 Concentrate (1:2)

Other means of identification : Not applicable

Recommended Use : Pipeline cleaning product

Restrictions on Use : Reserved for industrial and professional use.

Supplier Information : AgroChem, Inc

26 Freedom Way

Saratoga Springs, NY 12866

(518) 226-4850

Product Dilution : Product is a concentrate, dilute 1:2, by volume

.

Date of issue : 04/15/2016

EMERGENCY HEALTH INFORMATION: 1 (800) 424-9300 Outside United States and Canada CALL: +1 (703) 741-5500

Section 2. Hazards Identification

GHS Classification
Skin corrosion
: 1A
Serious eye damage : 1

GHS Label Element

Hazard pictograms :

Signal Word : Danger

Hazard Statements : Causes severe skin burns and eye damage.

Precautionary Statements

Prevention: Wash skin thoroughly after handling. Wear protective gloves/

protective clothing/ eye protection/ face protection. Do not mix with bleach or other chlorinated products – will cause chlorine

gas.

Response: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON

SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/

physician. Wash contaminated clothing before reuse.

Storage: Store locked up.

Disposal: Dispose of contents/ container to an approved waste disposal

plant.

Other hazards : None Known

Section 3. Composition / Information on Ingredients

Pure substance/mixture : Mixture

Chemical Name CAS-No. Concentration (%)

 Phosphoric Acid
 7664-38-2
 45 – 50

 Nitric Acid
 7697-37-2
 20-30

Section 4. First Aid Measures

In case of skin contact

In case of eye contact : Rinse immediately with plenty of water, also under the eyelids, for

at least 15 minutes. Remove contact lenses, if present and easy

to do. Continue rinsing. Get medical attention immediately.

Wash off immediately with plenty of water for at least 15 minutes. Use a mild soap if available. Wash clothing before reuse.

Thoroughly clean shoes before reuse. Get medical attention

immediately.

If swallowed : Rinse mouth with water. Do NOT induce vomiting. Never give

anything by mouth to an unconscious person. Get medical

attention immediately.

If inhaled : Remove to fresh air. Treat symptomatically. Get medical attention

if symptoms occur.

Protection of first-aiders : If potential for exposure exists refer to Section 8 for specific

personal protective equipment.

Notes to physician : Treat symptomatically.

See toxicological information (Section 11)

Section 5. Fire-Fighting Measures

Suitable extinguishing media : Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment.

Unsuitable extinguishing media : None known.

Specific hazards during fire

fighting

: Not flammable or combustible.

Hazardous combustion products : Decomposition products may include the following materials:

Carbon oxides Nitrogen oxides (NOx) Sulfur oxides Oxides of

phosphorus

Special protective equipment for

fire-fighters

Use personal protective equipment.

Specific extinguishing methods : Fire residues and contaminated fire extinguishing water must be

disposed of in accordance with local regulations. In the event of

fire and/or explosion do not breathe fumes.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency

procedures

: Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the

exposure limit they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to

protective measures listed in sections 7 and 8.

Environmental precautions

Do not allow contact with soil, surface or ground water.

Methods and materials for containment and cleaning up

Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not

reach a waterway.

Section 7. Handling and Storage

Advice on safe handling Do not ingest. Do not get in eyes, on skin, or on clothing. Do not

breathe dust/ fume/ gas/ mist/ vapors/ spray. Use only with adequate ventilation. Wash hands thoroughly after handling. Do not mix with bleach or other chlorinated products – will cause

chlorine gas.

Conditions for safe storage Keep away from strong bases. Keep out of reach of children.

Store in suitable labeled containers.

Storage temperature -30 °C to 50 °C

Section 8. Exposure Controls / Personal Protection

Ingredients	CAS-No.	Form of Exposure	Permissible	Basis
			Concentration	
Phosphoric acid	7664-38-2	TWA	1 mg/m3	ACGIH
		STEL	3 ppm	ACGIH
		TWA	1 mg/m3	NIOSH REL
		ST	3 mg/m3	NIOSH REL
		TWA	1 mg/m3	OSHA Z-1
		TWA	1 mg/m3	OSHA Z1
Nitric Acid	7697-37-2	TWA	2 ppm	ACGIH
		STEL	4 ppm	ACGIH
		STEL	4 ppm 10 mg/m3	NIOSH REL
		TWA	2 ppm 5 mg/m3	NIOSH REL
		TWA	2 ppm 5 mg/m3	OSHA Z1
			-	

Engineering measures : Effective exhaust ventilation system. Maintain air concentrations

below occupational exposure standards.

Personal protective equipment

Eye protection : Safety goggles / face protection

Hand protection Wear the following personal protective equipment: Standard

glove type. Gloves should be discarded and replaced if there is

any indication of degradation or chemical breakthrough.

Skin protection : Personal protective equipment comprising: suitable protective

gloves, safety goggles and protective clothing

Respiratory protection : When workers are facing concentrations above the exposure limit

they must use appropriate certified respirators.

Hygiene measures : Handle in accordance with good industrial hygiene and safety

practice. Remove and wash contaminated clothing before re-use.

Wash face, hands and any exposed skin thoroughly after handling. Provide suitable facilities for quick drenching or flushing

of the eyes and body in case of contact or splash hazard.

Section 9. Physical and Chemical Properties

Appearance : Liquid

Color : Clear

Odor : Pungent

pH : 1.6, 100%

Flash point : Not applicable

Odor Threshold : No data available

Initial boiling point and boiling

Melting point/freezing point

range

Evaporation Rate No data available Flammability (solid, gas) No data available Upper explosion limit No data available Lower explosion limit No data available Vapor pressure No data available Relative vapor density No data available Relative density 1.340 - 1.350Water solubility No data available Solubility in other solvents No data available

Partition coefficient: n-

octanol/water

: No data available

No data available

>100°C

Autoignition temperature : No data available
Thermal decomposition : No data available
Viscosity, kinematic : No data available
Explosive properties : No data available
Oxidizing properties : No data available
Molecular weight : No data available
VOC : No data available

Section 10. Stability and Reactivity

Chemical stability Stable under normal conditions.

Possibility of hazardous reactions Do not mix with bleach or other chlorinated products – will cause

chlorine gas.

Conditions to avoid None known.

Incompatible materials Bases

Metals

Hazardous decomposition

products

Decomposition products may include the following materials:

Carbon oxides

Nitrogen oxides (NOx)

Sulfur oxides

Oxides of phosphorus

Section 11. Toxicological Information

Information on likely routes of

exposure

: Inhalation, Eye contact, Skin contact

Potential Health Effects

Eyes : Causes serious eye damage.

Skin : Causes severe skin burns.

Ingestion : Causes digestive tract burns.

Inhalation : May cause nose, throat, and lung irritation.

Chronic Exposure : Health injuries are not known or expected under normal use.

Experience with human

exposure

:

Eye contact : Redness, Pain, Corrosion

Skin contact : Redness, Pain, Corrosion

Ingestion : Corrosion, Abdominal pain

Inhalation : Respiratory irritation, Cough

Toxicity No data available No data available Acute oral toxicity Acute inhalation toxicity No data available Acute dermal toxicity No data available Skin corrosion/irritation No data available No data available Serious eye damage/eye irritation : No data available Respiratory or skin sensitization Carcinogenicity No data available

Reproductive effects : No data available
Germ cell mutagenicity : No data available
Teratogenicity : No data available
STOT-single exposure : No data available
STOT-repeated exposure : No data available
Aspiration toxicity : No data available

Ingredients

Acute oral toxicity

Phosphoric acid

LD50 Rat: > 2,000 mg/kg

Ingredients

Acute oral toxicity Phosphoric acid

LD50 Rabbit: > 2,000 mg/kg

Section 12. Ecological Information

Ecotoxicity

Environmental Effects : This product has no known ecotoxicological effects.

Product

Toxicity to fish : No data available : 96 h LC50: > 120 mg/l

Toxicity to daphnia and other

aquatic invertebrates

Toxicity to algae : No data available

Ingredients

Toxicity to fish : Phosphoric acid

96 h LC50: 75.1 mg/l

No data available: 48 h EC50: > 120 mg/l

Persistence and degradability : No data available
Bioaccumulative potential : No data available
Mobility in soil : No data available
Other adverse effects : No data available

Section 13. Disposal Considerations

Disposal methods : The product should not be allowed to enter drains, water courses

or the soil. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an

approved waste disposal facility.

Disposal considerations : Dispose of as unused product. Empty containers should be taken

to an approved waste handling site for recycling or disposal. Do

not re-use empty containers.

RCRA - Resource Conservation and Recovery Authorization Act

Hazardous waste

: D002 (Corrosive)

Section 14. Transport Information

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

Land transport (DOT)

UN number : 3264

Description of the goods : Corrosive liquid, acidic, inorganic, n.o.s.

(Phosphoric acid, Sulfuric acid, Nitric acid)

Class : 8
Packing group : II
Environmentally hazardous : No

Sea transport (IMDG/IMO)

UN number : 3264

Description of the goods : Corrosive liquid, acidic, inorganic, n.o.s.

(Phosphoric acid, Sulfuric acid, Nitric acid)

Class : 8
Packing group : II
Environmentally hazardous : No

Section 15. Regulatory Information

EPA Registration Number : None required. EPCRA - Emergency Planning and Community Right-to-Know
